

Dear Prospective Participants:

We regrettably inform you that the 14th International Forum on Ecological Civilization & the 3rd International Youth Forum on Ecological Civilization must be postponed due to the corona virus. The Forum was scheduled to be held from April 24-25 in Claremont, California, and April 27 at Willamette University, in Oregon.

We just learned that the U.S. Embassies in Beijing and Shanghai will not reopen until the beginning of May. Consequently, Chinese participants have no way to get their visas before our forum. We feel very sorry about this postponement and will keep you informed about rescheduling.

Your understanding is very greatly appreciated.

Sincerely yours,

Institute for Postmodern Development of China
